Bike ban review welcomed

The Kyneton Branch of the ALP has applauded Transport Minister Lynne Kosky's review of the decision to ban bikes on public transport during peak times.

The Branch has written to the Minister expressing its members' views that it is essential that public transport is integrated with other forms of transport, including bicycles, in order to encourage greater use of public transport.

In its letter the Branch has stated its belief that increased use of bicycles and public transport are important elements of a strategy that will:

- * Improve traffic flows, especially in urban areas;
- * Reduce the number of car trips with single occupants, including long trips by country

commuters;

- * Reduce congestion on the roads;

- * Reduce pollution caused by traffic, and

- * Reduce the road toll.

The Branch has strongly urged the Minister to find ways that will enable more commuters and other travellers to combine use of bicycles and public transport on more journeys.

"It is clear that for environmental, safety and health reasons there needs to be greater combined use of bicycles and public transport," Branch President, Eric Dearth said.

The Branch is encouraging interested people to also write to the Minister, care of Parliament House in Spring Street regarding the review.

Poyser Motors are pleased to welcome Martin Dzioba to their sales team! Call Martin to arrange a test drive of one of our quality used cars from our website on www.poysermotors.com.au/usedcars Martin will be happy to bring the car to you anywhere in the Castlemaine and surrounding area. Call today!
